

PRODUCT INFORMATION SHEET

Insulated PZ Pozidriv screwdrivers, profiled

Description

PZ screwdrivers, certified for working on live electrical wires at voltage of up to 1000 V. They are used for screwdriving. Reduced diameter tip model have a smaller diameter blade at the tip as well as insulation aligned with the tip end. They allow access to tight, deeply located holes.

Characteristics

- compliance with EN 60900
- VDE 1000 V rated
- made of high quality chromium-molybdenum steel
- durable, resistant to damage and deformation
- insulated magnetic tip increasing work precision and comfort when working
- bi-material handle with anti-slip profiled surface for high speed torque transfer and work safety
