

SKY

Popular LED panel in new design. It's time to introduce an LED panel to replace long fluorescent tubes: Sky – size 300x1200mm. Available with opal and microprism anti-glare shield. Perfectly suited for easy installation in false ceilings with visible support profile. For those who want surface-mounted installation, there is a spacer frame with pre-perforated holes for surface-mounted cables as an accessory. Easy to select 3000K or 4000K colour temperature with a DIP-switch. Sky MP meets screen and UGR requirements (UGR<19) in compliance with EN 12464-1 in standard conditions. Each panel is supplied complete with driver for phase dimming or DALI-2. Connection options include Q-Box Micro or Linect and the DIM version comes with 2 metres of pre-installed cable for quick, easy installation.

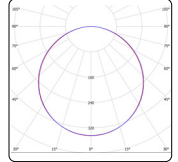

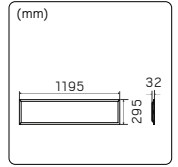

- Choose between opal or microprism louvre, where MP meets screen work requirements and UGR in standard conditions (EN 12464-1:2021)
- Three ways of connection: traditional via connection box, Linect quick connection system or 2m pre-installed cord set
- Selectable colour temperature via DIP-Switch ColourTemp 3000K or 4000K
- Spacer accessory with pre-perforated holes for surface-mounted cables
- Lifetime L80 100,000h Ta 25°C
- Lifetime driver 100 000h /10%
