

HIL-BOX® enclosure system including stepped entry seals, nylon-hinged screws, 300 x 220 x 120 mm

Shock resistant enclosures including **universal entry seals in soft material with different stepped diameters**. Cover fixed with nylon-screws. The unscrewing of the nylon screws allows to open the lid in 2 directions depending on the used screws. The screws are used as hinge and allow a fast opening of the enclosure. The enclosure systems are supplied with 10 preassembled step nipples. The remaining step nipples are located in the enclosure.

protection spec.: IP 55 acc. DIN EN 60529

material: base and lid ABS (UV resistant), entry seals PVC, screws PA

color: grey RAL 7035

installation temp.: -15 °C up to +60 °C acc. DIN EN 60670

temperature resistance: max. 70 °C acc. DIN EN 60695-10-2

flame protection: 650 °C acc. DIN EN 60695-2-11
