

Filament Beauty Eddy Led St64 – Globo – A60

EDDY ST64

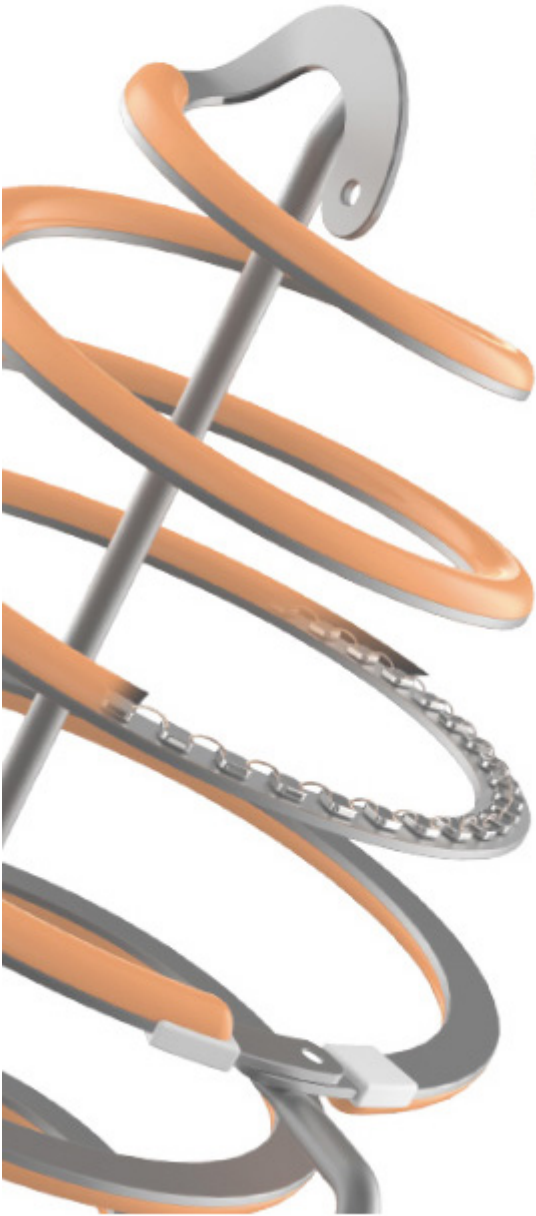

EDDY GLOBO

EDDY A60

- Innovative bulb with rigid spiral-shaped LEDs able to emit diffused light with the incredible effect of minimizing shadows typical of straight filaments.
- The point source replicates in the most faithful way the old incandescent bulb making the effect pleasant and unique.
- With 65 patents, it is the most precious and well-kept light bulb of its kind.
- Operation Temperature: -20°C~+50°C
- Wide light output
- Beautiful look, 100% same as traditional incandescent lamp
- Long life
- Low surface temperature
- IC Driver Design at constant current
- High Energy Saving
- Vacuum environment
- Sapphire – ceramic support
- No flickering under camera

 **Perchè scegliere**  - **Why choose** 

Beauty Led
No shadow
