**DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG**

Super effective: Our electric mosquito net is designed with a high intensity ultraviolet bulb which attracts all annoying flying insects into the device; kills them instantly when they come into contact with the powerful high-voltage metal grids; effective for an area up to 30 m<sup>2</sup>. No chemicals or odors; our electric mosquito net does not use any chemicals; it also produces no smoke, no smell, no spray; it is totally free of toxic substances and does not produce any form of pollution; moreover it is absolutely harmless for the human body and pets; also perfect for the shop, a room ...Easy to use and clean; our electric mosquito net is easy to place on any flat or hanging surface; however, we advise you to keep it hanging at a height of 1.8 m in the area where annoying insects flutter; just place the electric mosquito net in a dry place and plug it into the socket; dead insects are collected in the tray at the bottom, which can be easily removed for disposal and cleaning. SAFE AND DURABLE - Our electric mosquito net is designed in ultra-strong aluminum and ABS plastic; it has been designed to avoid any contact with the metal grids; energy-saving vu tubes are very efficient (2x6W) and can be replaced if necessary. Quality and service: Velamp is an Italian company that has been operating on the Italian market since 1906; we, there we are.
