

PL-S

PL-S 2 Pin

The original!

PL-S is an efficient low-wattage compact fluorescent lamp, typically used for decorative and orientation purposes. The original Philips-invented bridge technology guarantees optimum performance in the application, enabling more light and higher efficacy than the bended technology. The 2-pin version is designed for operation on electromagnetic gear and is provided with a plug-in/pull-out lamp base.

Product Benefit

- Optimal light performance for short or long operation per switch on
- Long life and sustainable light output

Product Feature

- 2-pin base with a housing incorporating the special instant starter and capacitor. For use on conventional copper iron ballasts and the radio interference suppression capacitor is installed. Dimming is not possible

- Lamp characteristics are influenced by operating conditions and control gear used

Application

- Designed for use in hotels, restaurants, theatres and homes
- Suitable for use in signs, corridors, security and orientation lighting
